To whom it may concern:

Please be strong in your actions against Microsoft. I urge you to exercise your power to ensure that Microsoft does not retain its monopoly over the PC industry. Please require Microsoft to fully standardize, document and publish the Microsoft Windows APIs, as well as the Microsoft Office APIs, so that other software vendors can compete with Microsoft on these fronts.

I believe that Microsoft unfairly abuses its monopoly power to keep down legitimate technology companies. In addition, Microsoft has flagrantly disregarded previous attempts at stemming the tide of limiting Microsoft's monopoly.

Please do the right thing for the good and honest citizens and corporations of the United States of America.

Thank you.
